

Product Code . EL-EELE-11264

Automated Candle Manufacturing Line Training System

Description

Automated Candle Manufacturing Line Training System

Transformation of the paraffin in granules or in pastilles in the case of the recycling in powder. Dosing of one or all powdered colorants with alveolar dispensers. Mixture of the paraffin and colorant(s) with the help of a mixer. Manual filling of the paraffin in powder in the hopper constituted of a endless screw allowing to fill the mixer. Ejection with an air jack. Dosing of the mixture with the help of an alveolar dispenser. Ejection with an air jack. Handling of the dose with the help of a pneumatic jack over of the mold. Compression with a hydraulic jack.

We are leading manufacturers, suppliers of Automated Candle Manufacturing Line Training System for Electronics Engineering Lab Equipments. Contact us to get high quality Automated Candle Manufacturing Line Training System for Electronics Engineering Lab Equipments for schools, colleges, universities, research labs, laboratories and various industries.
