

Product Code . EL-EELE-11299

Oscilloscope Demonstrator Trainer

Description

Oscilloscope Demonstrator Trainer

The Controls are placed actually at the place as they are in the layout schematic. The function controls and the adjustment controls are fully accessible to the trainee to verify their effect on the working of the scope. Thus a trainee can easily locate any section, & components in the section and study it thoroughly.

Features:-

- Amplifier, Time base, Channel section signal available on test points.
- Separate sections for PS, EHT, VA, HA, TB & Trigger for easy identification.
- Oscilloscope in open form with all components and controls placed on single PCB.
- Fault creation & rectification provided.
- Track printing with different colours on different sections on component board for easy circuit training.
- Legend Printing on PCB for easy identification of components.
- Can be used as a standard 20 MHz Dual Trace Oscilloscope.

We are leading manufacturers, suppliers of Oscilloscope Demonstrator Trainer for Electronics Engineering Lab Equipments. Contact us to get high quality Oscilloscope Demonstrator Trainer for Electronics Engineering Lab Equipments for schools, colleges, universities, research labs,

laboratories and various industries.
