

Product Code . EL-ACLE-11517

Programmable Logic Controller (FATEK PLC) Trainer

Description

Programmable Logic Controller (FATEK PLC) Trainer

Designed with the latest microprocessor and electronic circuitry, today's compact-size PLCs feature high level of reliability, performance, speed and networking. It is a self-contained trainer which consists of a FATEK PLC main unit and commonly used I/O devices for simulation. The use of PLCs in automated production lines enhances system reliability, product quality, information sharing, efficiency and flexibility and thus reduces costs. This trainer enables students to learn step by step from the fundamentals of PLC to more advanced controls used in industry. It provides students with a thorough understanding of the theories and applications of programmable logic controllers.

We are leading manufacturers, suppliers of Programmable Logic Controller (FATEK PLC) Trainer for Automatic Control Lab Equipments. Contact us to get high quality Programmable Logic Controller (FATEK PLC) Trainer for Automatic Control Lab Equipments for schools, colleges, universities, research labs, laboratories and various industries.
