

Product Code . EL-ACLE-11518

Programmable Logic Controller (SIEMENS) Trainer

Description

Programmable Logic Controller (SIEMENS) Trainer

The use of PLCs in automated production lines enhances system reliability, product quality, information sharing, efficiency and flexibility and thus reduces costs. Designed with the latest microprocessor and electronic circuitry, today's compact-size PLCs provide the feature of high level of reliability, performance, speed and networking. This trainer enables students to learn step by step from the fundamentals of PLC to more advanced controls used in industry. It offers students excellent theories and wide applications of programmable logic controllers. Self-contained trainer which consists of a SIEMENS PLC main unit and commonly used I/O devices for simulation.

We are leading manufacturers, suppliers of Programmable Logic Controller (SIEMENS) Trainer for Automatic Control Lab Equipments. Contact us to get high quality Programmable Logic Controller (SIEMENS) Trainer for Automatic Control Lab Equipments for schools, colleges, universities, research labs, laboratories and various industries.
