

Product Code . EL-EAMM-11566

Variable Compression Equipment

Description

The instrumentation provided is highly accurate, Includes an electric sensitive dynamometer, which allows To achieve fair and repeatable results. The engine can Be provided with a specific cylinder head fitted with Devices for the multi-channel indicator for Diagrams. Other cylinder heads for the gasoline engine. Anything Instrumentation and controls are located on the Control panel made of melamine resin which comprises Multi color synoptic table. Variable compression ratio are provided to allow To study the effects on the efficiency of the engine.

We are leading manufacturers, suppliers of Variable Compression Equipment for Engines and Machines Models. Contact us to get high quality Variable Compression Equipment for Engines and Machines Models for schools, colleges, universities, research labs, laboratories and various industries.
