

Product Code . EL-MACL-11616

Temperature Measurement and Control (RTD)

Description

Temperature Measurement and Control (RTD)

Here using this setup one can evaluate linear characteristics of RTD (PTC) by verifying actual measured values of temperature as well as resistance. Here as a additional study feature on/off control is also implemented. Here simple demonstration setup is provided to experiment with linear characteristics of RTD (PTC).

Specifications:-

- RTD (PTC) with necessary signal conditioning & control circuit.
- Thermometer.
- Water Bath with heating arrangement.
- Powder coated enclosure.

We are leading manufacturers, suppliers of Temperature Measurement and Control (RTD) for Measurement and Control Lab. Contact us to get high quality Temperature Measurement and Control (RTD) for Measurement and Control Lab for schools, colleges, universities, research labs, laboratories and various industries.
